  <title>Introduction to HTML</title>
</head>
<body>

  <h1>Welcome to our website!</h1>
  <p>We are making it with HTML.</p>

  <h2>This is a heading a little smaller than the other one.</h2>
  <p>This is just a regular paragraph element.</p>

  <p>We can make a bulleted list like this:</p>
  <ul>
    <li>Here's some words!</li>
    <li>We can make them <strong>bold!</strong></li>
    <li>We can make them <i>italic...</i></li>
  </ul>

  <p>There's also ordered lists:</p>
  <ol>
    <li>We use ol instead of ul because it is ordered</li>
    <li>That gives us numbers like this one</li>
    <li>Or this one</li>
  </ol>

  <p>Now, see what you can do!</p>
