

CODING FOR CONFIDENCE

Module 4: Girls Connect

Overview: In this session, teams will connect web pages they coded previously using links and buttons. Teams will continue to engage in team building activities to develop their interdependence and enhance their communication and collaboration skills by lifting the Paired Programming to the next level. Teams will code Ozobots taking turns to collaboratively accomplish the task. Then during our CODE ALONG teams will explore coding to connect pages, linking pages and creating buttons. They will go deep in examining how buttons make things happen using prewritten functions. Teams will have time to experiment with ways to incorporate links and buttons in their web page design.

Materials (Advanced Prep): devices (one for each participant), Handouts: Coding Chronicle 4

Welcome: Greeting and Ice Breaker (Getting to Know You)

QUERY: How can Girls Connect?

Activate Your Heart with our Daily Affirmation - We connect for success

Word of the Day: connect

Session Preparation (“Do Now”): participants sign in to repl.it using their Google Account

View:

Team Building: Pair Programming Ozobots - Teams take turns with the marker to program the Ozobots and collaboratively complete the task.

Coding Workshop:

Introduction Connections and Actions (embedded vocabulary, links and buttons, how things happen using prewritten functions)

Interactive CODE ALONG Add actions to the webpage through links and buttons

Experiment with adding functions to your design or explore new ways to code.

Confidence Affirmation: We connect for success
