

CODING FOR CONFIDENCE

Girls Just Wanna Have Fun

Overview: In this session, we celebrate our teams' achievements in the CODING FOR CONFIDENCE HACKATHON.

Materials (Advanced Prep): devices (one for each pair/team), Handouts: Coding Chronicle Celebration and THINK AND JOT recording page (last page of Coding Chronicles 8)

Welcome:

Query: How can girls Reflect and Celebrate?

Word of the Day: EMPOWERED

THINK AND JOT (What did you learn? What challenges did you face? What made you feel empowered?). These notes will be used for the exit interviews and discussions.

Activate Your Heart with our Daily Affirmation - Empowerment

Session Preparation ("Do Now"): participants sign in to repl.it using their Google Account

View: Slides presentation with photos from our sessions together

Team Building: STEM CHALLENGE Teams will work together to solve a unique challenge using unusual materials. The focus will be on communicating, supporting one another, and working together to complete a task. Teams will move and stack cups in a pyramid without touching the cups with their hands. Teams will brainstorm and develop a plan, and then work together to complete the task.

Celebration:

Share Discussions and Exit Interviews: During Team building, meet with each team. Teams share achievements and learning.

Party! Girl Power Music, Dance Party, Refreshments, and Awards

Awards: Synergy, Persistence/Perseverance, Encouragement/Lift Up, Girls Girl, Femergy, Motivation, Effective Solution, Confidence Growth, Communication, Empowerment, Debugging Post Survey (if needed)

Confidence Affirmation: Empowered
